ANTIMICROBIAL STEWARDSHIP (AMS) WORKSHOP

8 - 9 December 2025

Dewan Aminuddin Baki,
Wisma Sejarah, Kuala Lumpur

Training Fee:

MSQH / MPS Member: RM 1,900 per pax

International / Non-Member Price: RM 2,500 per pax

Note: Participants are advised **not to make** any accommodation or travel arrangements prior to 26 November 2025.

OVERVIEW

This two-day workshop is designed to empower pharmacists with the knowledge, confidence, and practical skills to drive excellence in Antimicrobial Stewardship (AMS) and support MSQH accreditation efforts. Participants will gain valuable insights into applying AMS principles effectively within their healthcare settings to enhance patient safety and combat antimicrobial resistance.

Jointly organized by the Malaysian Pharmacists Society (MPS) and the Malaysian Society for Quality in Health (MSQH), the workshop features engaging sessions covering clinical, management, and performance aspects of AMS. Through expert-led presentations and interactive discussions, pharmacists will learn to implement evidence-based interventions and lead impactful AMS initiatives in their organizations.

Jointly Organized by: **MSQH** &

OBJECTIVES

This workshop aims to provide pharmacists with structured training in Antimicrobial Stewardship (AMS) aligned with MSQH accreditation standards. It offers a platform to share best practices between public and private hospitals, deepen understanding of AMS principles and guidelines, and strengthen pharmacists' skills in implementing MSQH-compliant practices. The program also focuses on optimizing antimicrobial use, enhancing interdisciplinary collaboration, and establishing effective monitoring and surveillance systems to support accreditation readiness and continuous quality improvement.

TENTATIVE PROGRAM

DAY 1 | 8 DECEMBER 2025

09:00 AM	Registration and Refreshment
09:30 AM	Welcome Speech and Safety Briefing
09:40 AM	Lecture 1: Taking AMS Off The Ground
10:20 AM	Photo Session
10:40 AM	Lecture 2: Making Sense of Data
11:50 AM	Lecture 3: Point Prevalence Surveillance: What's Matter ?
13:00 PM	Lunch and Networking
14:00 PM	Lecture 4: Challenges and Strategies of Antibigram as tools in AMS
15:10 PM	Lecture 5: Antimicrobials Mix and Match
16:20 PM	Debriefing and Briefing for Day 2
16:30 PM	Tea and Networking

DAY 2 | 9 DECEMBER 2025

08:00 AM	Registration and Refreshment
