*Note: Participants are required to keep their **cameras on** throughout the training. Those who fail to do so may be **removed** from the session.*

Course overview

This one-day training provides comprehensive insights into MSQH 6th Edition Standard 23: Forensic Medicine and 23A: Mortuary, focusing on safe, ethical, and compliant forensic and mortuary operations.

Participants will gain essential knowledge on facility safety, body handling, legal frameworks, and forensic evidence management. The course also emphasizes dignified care for the deceased and effective communication with next-of-kin.
