COURSE OUTLINE

MSQH in collaboration with the National Transplant Resource Centre are working together to organize Malaysian Grief Response & Organ Donation Training or better known as MyGRODA. This workshop mainly targeted to private hospitals across the country.

MyGRODA is a groundbreaking initiative that aims to improve healthcare services in the field of deceased organ and tissue donation. As the first course of its kind targeted specifically towards healthcare workers involved in this field, MyGRODA is designed to provide a comprehensive set of skills and knowledge necessary to effectively manage grief in bereaved families.

Jointly organized by:

+603-2681 2232

+603-2681 2230

OBJECTIVES

- 1.To create awareness among hospital staff regarding organ donation and transplantation in Malaysia. Hospital staff will be able to differentiate between organ donation and transplantation as well as understand the needs to reduce the number of patients in the waiting list.
- 2.To guide private hospitals in setting up TOP teams, explain the roles of TOP team members and describe the workflow of organ/tissue donation.
- 3.Educate hospital staff on brain death thus enabling them to explain brain death to fellow colleagues and the public.
- 4.To identify and understand grief and bereavement, learn techniques in breaking bad news and handling bereaving family members.
- 5.To educate hospital staff on family communication and organ donation conversation.
- 6.To educate hospital staff on the role and function of the National Transplant Resource Centre.
